FOR IMMEDIATE RELEASE

Valhalla Restoration & Fabrication revs engines for spring car shows with kustom metalwork and paint for classics and muscle cars

BLAIRSTOWN, NJ – [Valhalla Restoration & Fabrication](http://www.valhallakustom.com) opened its doors in a four bay garage accommodating seven cars on Silver Lake Road almost a year ago, and today is readying all makes and models of vehicles for upcoming car shows. Says Anthony (AJ) Biancone, “My customers range from everyday enthusiasts to corporate executives to true collectors... and these cars are their passion. Right now I’m finishing six cars for various summer car shows, like the May 29th [Hackettstown Rotary](http://www.hackettstownrotary.com) Memorial Motor Madness.”

Visiting Valhalla is like a walk down memory lane for many automotive enthusiasts, where cars of yesteryear are being refurbished to original splendor and then some! Corvette, Cuda, Camaro, Mustang, Cadillac... AJ appreciates the unique attributes of each vehicle’s design and helps customers to realize a personal vision for the vehicle. AJ comments, “We receive all types of requests for frame-off restoration, metal fabrication and fiberglass, custom paint from [Valspar](http://www.valspar.com), racing suspensions, mechanical upgrades and decorative flair... like hood pads sewn into flames, LED lights, custom grills and one-of-a-kind creations.”

With decades in the business, AJ has talented resources available to meet even the most unique requests. And, excellence runs in the family, with brother Greg Biancone receiving the [Valspar House of Kolor](http://www.houseofkolor.com) 2011 Prestigious Painter Award for paint work on a 1957 Chevrolet Bel Air Hard Top owned by Melvin Milligan of Passaic, NJ.

If people want to see the cars of Valhalla, [Facebook](https://www.facebook.com/valhallakustom) provides an easy way to check out work as it is being done. The photo albums are filled with cars from today, and those representing AJ’s career. “I credit online media for people finding my new company,” comments AJ. “I was fortunate to connect Valhalla with Wendy Flanagan, a social media marketing expert and car enthusiast.”

Adds Wendy Flanagan, marketing consultant, “I call Valhalla every day and ask, “AJ what are you working on? People want to know!” Valhalla fans are genuinely interested in the talent, passion and American heritage that AJ and his team are preserving.”

About Valhalla Restoration & Fabrication

Valhalla Kustom provides full service auto restoration, repair, and maintenance, specializing in muscle cars, Kustom hot rods, and classic stock restoration. Whether Corvette, Mustang, Camaro, GTO, Cobra, Challenger, Charger, or Cuda, Valhalla can completely rebuild from the ground up with a frame-off restoration, or provide basic repair and paint refinishing. Show winner or everyday driver, Valhalla provides outstanding quality and craftsmanship on all makes and models. Call Valhalla at 908-362-7158 or visit [ValhallaKustom.com](http://www.valhallakustom.com).
